Skills				General elective			
First Year Writing	1	3.0	from approved list	Total Hours	15.0	6th Semester	
Advanced Written and Oral Communications	1	3.0	from approved list	Statistics elective 1			
Quantitative Reasoning	1	4.0	MATH 112*	Social Science			
Languages of Learning (Math or Language)	1	4.0	MATH 112*	Civilization 2			
Arts, Letters, and Sciences				Religion elective			
Civilization 1	1	3.0	from approved list	General electives			
Civilization 2	1	3.0	from approved list	Total Hours	15.0	7th Semester	
Arts	1	3.0	from approved list	Statistics elective 2			
Letters	1	3.0	from approved list	Statistics elective 3			
Biological Science	1	3-4.0	from approved list	Religion elective			
Physical Science	1-2	3-7.0	from approved list	General electives			
Social Science	1	3.0	from approved list	Total Hours			
Core Enrichment: Electives				15.0			
Religion Electives	3-4	6.0	from approved list	8th Semester			
Open Electives	Variable	Variable	personal choice	Statistics elective 4			
*THESE CLASSES FILL BOTH UNIVERSITY CORE AND PROGRAM REQUIREMENTS (4 hours overlap)				General elective			
Graduation Requirements:				Total Hours			
Minimum residence hours required		30.0		15.0			
Minimum hours needed to graduate		120.0					

Note 1: The sequence of courses suggested may not fit the circumstances of every student. Students should contact their college advisement center for help in outlining an efficient schedule.

Note 2: Students are encouraged to complete an average of 15 credit hours each semester or 30 credit hours each year, which could include spring and/or summer terms. Taking fewer credits substantially increases the cost and the number of semesters to graduate.

Note 3: Students must have the statistics core completed before their senior year in order to graduate within four years.

The curriculum and degrees offered through the Department of Statistics are designed to equip students with decision-making skills for careers as professional statisticians in industrial organizations, government agencies, insurance companies, pharmaceutical companies, universities, and research institutes.</p> <p>While the Statistical Science emphasis is designed to prepare students for graduate programs, all students in the Statistical Science emphasis leave BYU with a resourceful, disciplined, and flexible approach to statistics, an enhanced capacity to analyze and interpret data, a broadened perspective on the impact of data in decisionmaking, and a well-developed capacity for understanding and communicating statistical results.</p> <p>CAREER OPPORTUNITIES:</p> <p>The increase of big data and analytics across disciplines is creating new challenges and opportunities for statisticians. The Statistical Science emphasis prepares students to enter competitive graduate programs in statistics. The technical tools statisticians acquire are useful in many areas and for this reason a statistics degree is also excellent preparation for public administration. Recent alumni who did not go to graduate school are working at Adobe, Saks Fifth Avenue, Qualtrics, Milliman, Pariveda Solutions, and the Utah Governor's Office of Planning and Budget.</p> <p>CERTIFICATION:</p> <p>SAS Certified Base Programmer and SAS Certified Advanced Programmer. Students can take the SAS Certification exams after completing Stat 124 and 224. Information and exam registration is available at http://support.sas.com/certify/creds/index.html.</p>

BS in Statistics: Statistical Science (695220)

2018-2019

SAS/BYU Applied Statistics and Advanced SAS Programming Certificate. Students who earn a B or higher in the applied and computing core classes (Stat 124, 224, 230, 330, 381) are eligible to receive a certificate jointly issued by SAS and BYU which can be listed on a resume. More information is available at <https://statistics.byu.edu/content/sas-certificate-opportunities>.

INTERNSHIPS:

Several government agencies offer internship programs suitable for students in the Statistical Science emphasis: the Joint Program in Survey Methodology (<https://jpsm.umd.edu/undergraduate/junior-fellows-overview>), National Institute of Standards and Technology (<https://www.nist.gov/programs-projects/internship-program>), National Institutes of Health—Summer Institute for Training in Biostatistics (<https://www.nhlbi.nih.gov/node-general/summer-institute-biostatistics>). Local internships are also available at Qualtrics, Utah Transit Authority, Intermountain Healthcare, Adobe Predictive Analytics, and inc.com.

MAP DISCLAIMER

While every reasonable effort is made to ensure accuracy, there are some student populations that could have exceptions to listed requirements. Please refer to the university catalog and your college advisement center/department for complete guidelines.
